1228TOE - 1248TOE

Open End Tubular Handle Wrenches

PRODUCT DETAILS

- Unique, versatile design allows wrench to be used with or without optional handles
- Tubular wrenches may be used without the handle to quickly run down nuts
- The handle can then be attached to provide maximum turning power for final tightening or to reach otherwise inaccessible fasteners
- A detent on the wrench shaft helps to align locking button with handle hole
- Open end wrench head provides access in tight areas
- Sizes of both SAE and corresponding metric fasteners are shown
