

WSC-225-TH
Tools@Height Intermediate Tool
Set Only

PRODUCT DETAILS

- The Tools@Height Intermediate Maintenance set provides a full complement of tools. All tools are designed to be used with our tethering and retention systems which maintain or enhance the tools' functionality when used at height or near critical assemblies. Safety right out of the box
- Many applications - any industry where a dropped tool could harm personnel, damage machinery or cost production time. High level uses - drilling derricks, wind turbines, cranes, buildings, bridges, masts, powerlines, hangars, scaffold builders Low level uses - stop tools dropping onto flight hardware, into engines, machinery, food production lines, vats, mine shafts, even under water uses
- Set is available with foamed tool control drawers on a special order basis
