

## 9033 R US

ERGO<sup>™</sup> 32 mm Central Nut Wide Opening Jaw Adjustable Wrench with Rubber Handle and Phosphate Finish 170 mm

## PRODUCT DETAILS

Adjustable wrenches developed according to the scientific ERGO<sup>™</sup> process

• Extra-wide jaw opening with a shorter handle than a standard wrench offers accessibility to work in confined spaces

- Jaw will not fall out even at maximum opening of the wrench
- Head combines slim design for accessibility with strength for performance

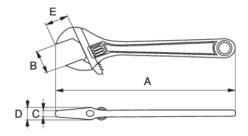

• Laser scale in mm for pre-adjusting and accurate measurement

• Skydrol- and oil-resistant rubber handle

• High-performance alloy steel forged in single piece

• Phosphate, precision-hardened and anticorrosion treated

- Left turning screw
- Standards: ISO 6787, DIN 3117, ASME
- B107.8-2003 and BS 6333
- Maximum comfort with minimum effort thanks to ergonomic design
- Ergonomically designed thermoplastic elastomer handle distributes pressure uniformly in the hand, reducing the risk for work related injuries
- The handle never feels too warm or too cold and tolerates oil and grease. Soft, high-friction surface reduces the risk of slipping
- Parallel jaws placed at a 15° angle provide a firm grip and best reach
- Higher capacity and accessibility with wider opening jaws and shorter handle
- Ultimate strength through precision hardening and high-performance alloy steel
