

**33H R US**

## **Adjustable Wrenches with Hook and Phosphate Finish**

### PRODUCT DETAILS

- Essential operator's tool combines 2 tools into 1 convenient everyday tool that can be used wherever valves are adjusted for flow and pressure
- Extra-wide jaw opening and hook end for assistance when operating manual valves
- Extra-wide jaw opening with shorter handle than a standard wrench offers accessibility to work in confined spaces
- Head combines slim design for accessibility with strength for performance
- Laser scale in mm for pre-adjusting and accurate measurement
- Tether hole added to secure the tool when working at height
- High-performance alloy steel forged in single piece
- Phosphate finish, precision-hardened and anti-corrosion treated
- Left-going screw
- Standards: ISO 6787, DIN 3117, ASME B107.8-2003 and BS 6333
- Retail pack
- Parallel jaws placed at a 15° angle provide a firm grip and best reach
- Combination tool which helps to operate valves without stripping the nuts or gouging the rims
- Easy to carry while its length is enough to provide the necessary leverage
- Easily legible laser marked metric scale
- Wide mouth offers accessibility to work in small spaces
