

3940-228-10-PR09-100P
Sandflex® Bi-Metal Sabre
Sawblade for Pallet Repair 10 TPI
228 mm - 100 Pcs/Plastic Tubes

PRODUCT DETAILS

- The pallet repair blade is developed in close co-operation with pallet repair shops
- Virtually unbreakable Sandflex® bi-metal blade for all materials and type of cut
- HSS toothing with 8% Cobalt
- This toothing has good material removal rate in wood with nails and high strength to tooth breakage
- 0.9 mm to 1.3 mm thickness
- 10/14 TPI has proved to be the most popular teething amongst users in pallet repair shops
- By increasing the shank radius, we have improved the fatigue strength
- The unique front design prevents the blade front to get stuck in close by wood beams, when cutting nails in damaged parts of the pallet
- 228 mm length
- The packing quantities are 10 pieces or 100 pieces in plastic tubes
