

3946-100-DG-ST-2P

**Sabre Saw Diamond Grit Blades
For Cast Iron And Ceramics 100
mm**

PRODUCT DETAILS

- Standard Shape (ST) for fast and aggressive straight cuts, but still flexible for narrow cutting
- Fine 40-50 grit diamond coating welded to blade body for long life with high performance
- Specially designed to cut cemented cast iron - this is the only blade in the range that can cut pipes made of cemented cast iron
- Diamond grit blades withstand heat and can work under extreme conditions
- Also suitable for cutting ceramic tiles and glass
- Best results with 18 V cordless or corded sabre saws
- Universal shank – fits any type of reciprocating saw
